According to the census reports there were in 1900, 5,700,000 farms in cultivation in this country, against 4,564,691 in 1890.

It took 4,000 words to define Senator McLaurin's political creed, when a dozen or so would have sufficed. A creed that is based on selfishness does not require much definition.

Chin Du, who ran the washee-washee business in Atlanta for some years, and made between $4,000 and $5,000, has gone back to China to enjoy his wealth. With all that lucre he can live like a lord there.

If this country were as densely populated to the square mile as England is it would have a population of 1,194,000,000. When that time comes the farmer will not be bothered to find a market for his truck.

And now the Britishers have struck another blue streak. Wm. Whitney's horse Valodyovski captured the Derby Blue ribbon. But that name ought to get away with an Englishman. Where did Whitney find it?

The bees in Trinidad are cute. Instead of laboring and wasting time making wax to build their honey combs, they gather the resinous exudation of trees and utilize that. They find the rubber trees very handy.

Edison's storage battery, which it is now said he has made a success of, will relegate the trolley wire, dynamos, gas engines and all that sort of thing. Storage batteries have been used for propelling street cars, &c., but for various reasons they did not fill the bill, which, it is claimed, Edison's does.

Major George W. Littlefield, of Austin, Texas, is said to be the largest individual land owner in the United States. He owns a patch of 1,250,000 acres. He also owns a little stock farm, having 5,000 Hertford cows, 340 Hertford bulls and lots of horses and mules. He does not know exactly how many cattle he has on his ranch, but somewhere between 70,000 and 80,000.

CHARGE IS MURDER.

The Grand Jury Returned a True Bill Against Jim Hawkins Yesterday Morning.

HE PLEADED NOT GUILTY.

And Judge Bryan Ordered a Special Venire of 75 and Assigned Counsel for His Defence—Trial on Wednesday—The Criminal Court.

The most important feature of yesterday's session of the Criminal Court was the finding by the grand jury of a true bill against Jim Hawkins, colored, for murder and his arraignment before the court and plea of not guilty as to the charge.

The crime for which Hawkins will have to answer is the murder of an associate in a card game at a house in an alley over in "Brooklyn" a few weeks since, the particulars of which are well known to readers of this paper. It was about noon when the grand jury sent up the bill and Sheriff Stedman brought the prisoner in. He appeared little disturbed in mind and met the charge without the slightest manifestation of feeling. He stated in response to an inquiry that he had no counsel and Judge Bryan assigned to defend him, Messrs. Brooke G. Empie, Thomas W. Davis, A. R. Dunning and C. D. Weeks. The trial was set for Wednesday of the coming week and a special venire of seventy-five men was ordered summoned from which to select a jury. These were drawn yesterday and will be summoned at once.

The court met at 9 o'clock yesterday morning and adjourned at 2 P. M. for the week. It is doubtful if the business of the term can be concluded before next Saturday.

The proceedings yesterday other than the Hawkins case, were as follows:

John Williams, Fred Williams, Henry Sellers, larceny, not guilty.

Eddie Willis, submitted to larceny, judgment suspended.

Mamie Carver, carrying concealed weapons, verdict not guilty.

Wm. Watkins, assault and battery with deadly weapon, case continued and defendant required to give $100 bond for his appearance at the July term of the court.

M. Lippett, selling liquor on Sunday; submitted; judgment reserved.

M. Lippett, selling liquor without license; submitted; judgment reserved.

The jury drawn for the second week of the term is composed as follows: G. James Boney, Wm. Brothers, E. W. Rogers, H. C. L. Bookenhagen, E. P. Boatwright, A. S. Jones, B. M. Hill, D. S. Gurganus, David C. Clark, W. A. J. Yopp, Edgar Hinton, F. D. Capps, L. H. Kelly, Jas. F. Post, F. P. Baldwin, W. J. Morriss, L. Southerland and Louis Craig.

Children's Day Service.

Children's Day exercises will be observed by the Sunday school at the First Baptist Church this morning at 11 o'clock, and an enjoyable programme has been prepared for the occasion. It will be executed under the direction of Superintendent Geo. E. Leftwitch, and the public is cordially invited. Rev. Dr. Calvin S. Blackwell will make an address and will have for his theme, "God in Nature," which will be the general theme of the exercises. Three hundred children will participate. The Sunday school will meet at 4:30 o'clock this afternoon, but the exercises will be in the morning.

Trip to Southport.

The excursion public is asked not to forget that the steamer *Southport* leaves her wharf at foot of Market street this morning at 10 o'clock for Southport and the sea. The fare for the round trip is only 25 cents and a rare treat is in store for all who are yearning for a day's rest and breath of fresh ocean breeze. The *Wilmington* at the same hour will leave for Carolina Beach and also at 2:30 o'clock in the afternoon. Carolina Beach is now fully open for the season and the opportunity for enjoyment is great.

Mr. Hugh Blackwell.

Mr. Hugh Burke Blackwell, the eldest son of Dr. C. S. Blackwell, of this city, will be graduated next Wednesday from the University of Virginia, after completing a full four year's course of nine months each year in medicine. Mr. Blackwell is the youngest man in his class and will receive his degree before he is twenty. He will begin an extensive line of subgraduate work in New York hospitals, after spending a short vacation with his mother in Norfolk.

— Members of the police department are beginning to have their usual vacation of a week for the Summer. Last week Messrs. J. M. King, H. H. Woebse and C. E. Wood were off duty. This week Messrs. C. S. Burnett and Leon George will not answer roll call.

— Oriental Conclave No. 1, and Jewell Conclave No. 3, Heptasophs or Seven Wise Men, will hold meetings during the coming week for the purpose of taking into consideration plans for the consolidation of the two. An advertisement to this effect appears in another column.

SEASHORE HOTEL OPENING.

Brilliant Affair at Wrightsville Beach Last Evening—A Throng of Visitors to the Popular Resort.

The final opening of the remodelled Seashore Hotel took place last night at Wrightsville Beach. It was like an evening at the season's height. The same crowded verandas as of yore; the music, the laughter and the mingled hum of many voices. The hotel has been thoroughly overhauled this year and extensive additions made. The new ball room in the annex with its broad verandas has increased the floor room materially, and the space was certainly needed last night.

The trains leaving the city during the day over the Seacoast Railway were all well filled and six coaches were found necessary to accommodate the crowd that left the city at 7.30 o'clock last evening to partake of supper and attend the opening dance.

A supper consisting of all the delacies of the sea was served by Manager Hinton in the style for which the hotel is justly famous. The menu included:

FISH, ETC.
Pig Fish. Clam Fritters.
Soft Crabs.
COLD MEATS.
Deviled Crabs. Shrimps.
Ham.
POTATOES.
Saratoga Chips. French Dried.
Potato Salad.
BREADS, ETC.
Rolls. Biscuit.
Corn Bread.
Dry, Buttered or Milk Toast.
Plain Bread.
Lemon Sherbet, Sponge Cake.
Coffe, Chocolate, Milk, Tea.

Dancing in the new ball room began at 9 o'clock with about 75 couples participating. Hollowbush's Orchestra, of which the State can probably not boast an equal, furnished the music. This band has been secured by the management of the hotel for the season and promises to be one of the special attractions at the beach this Summer. From a point of enjoyment, the dance last night was an immense success. Everybody from Wilmington was there, and everybody from Wilmington, together with the hotel guests, enjoyed themselves.

The register of the hotel is increasing daily and already about fifty guests have been received. Among the late arrivals are: Mrs. A. G. Hagood and maid, Charlotte, N. C.; J. R. Parker, J. C. Post, Philadelphia; G. J. Prior, J. S. Mitchell, W. E. Adamson, Geo. H. Sims, B. E. Gardner, F. T. Peekins, Atlanta, Ga.; Mr. and Mrs. A. J. Crampton, Charlotte, Miss Alice Powers, Charlotte; Mr. and Mrs. Montgomery Waddell, Jr., and maid, New York City; H. M. McKemmon, J. W. Carter, Maxton, N. C.; Spencer Fountain, Rocky Mount, N. C.; Mr. and Mrs. E. W. Cook, Fayetteville; W. J. Bennett, Philadelphia; W. B. Fort, Pikeville, N. C.; Mrs. C. M. Davidson and maid, Charlotte; Mrs. Daniel and Capt. E. W. VanC. Lucas, wife, child and maid, city.

Those $11, $10 and $9.50 Suits, which the Fishblate Clothing Co. have marked down to $6.50, for this week only, are the greatest bargains ever offered to the clothing buyer. †

Wilmington made it two out of three from Norfolk by winning an intensely interesting game of ball at Hilton Park yesterday afternoon in the score of seven to six. Vorhees was in the box for the locals and pitched his usual good game. Morrisey went in for the visitors and also did good work. Vorhees allowed but a single hit up to the seventh inning and had he kept up that lick, it would have been a shut-out, pure and simple. Kemmer had on his usual good batting clothes and lined 'em out at the slightest provocation. Meade, also for the visitors, did well with the ash and fielded his position well. McGinnis and Stafford for the Giants, did good work in driving men around the cushions and Warren made a stop and a double of a "warm number" by Kemmer that put all the cranks to smiling and cheering. It was one of the prettiest plays seen in these parts during the season. Cranston caught a superb game for "Cy" but was too daring in his base running, when it came to "dead shot" Lehman. Everybody was satisfied with the game and seven hundred strong, they passed out the gates at the Park well pleased with the class of ball played.

Only three men—Mullen, Smith and Kemmer—faced Vorhees in the first. Clayton for the Giants drew four balls and stole second; Crockett got first on Daly's muff and was caught trying second, while Clayton went to third and scored on McDade's wild throw; Stafford walked and scored on an error of left. Sebring and Devlin popped out to short. With the exception of a two-base hit by Meade the Norfolks did nothing in the second and Warren led off for the locals with a single but was forced at second by Cranston, who was himself caught trying to purloin a base; McGinnis got a free pass and "Cy" went out on a beautiful fly to centre.

In the third, Lehman, Morrisey and Mullen went out in their order and the "Kid" hit double for Wilmington while "Davy" fanned; Stafford duplicated Clayton's beautiful drive and one man was across the plate. Sebring flew out to short and purposely got caught between first and second, while Stafford scored.

In the fourth, Smith singled and Kemmer hit hot to Warren, who made a beautiful stop and a double to Crockett and to Stafford; Daly fanned. For the Giants, Warren flew out to right, Cranston got first on Spratt's error, but was thrown out on attempt to steal second by quick work of Lehman; McGinnis drew four balls and "Cy" popped out to first. Both teams were retired in their order in the fifth, and in the sixth Norfolk got Mullen as far as first base on Stafford's error. The Giants were made to feel more hopeful by a beautiful line for two bags by Sebring, a pass for Devlin, a beautiful sacrifice by Warren, but Cranston went out to short and McGinnis fanned.

All hope of a shut-out, the prospects for which had been very bright, was cut off in the seventh, when the visitors all but tied the score by sending three men around the cushions. Big Bill Kemmer led off for a double; Mullen was out from short, and Big Bill scored on Spratt's single; Meade forced Spratt at second, and with two men down, McDade singled; Lehman bunted safely to Vorhees, and on his wild throw to third Meade scored and on Clayton's wild throw to third, McDade scored; Morrisey hit to short and Kemmer, running for Lehman, was put out at second. For Wilmington, Vorhees, Clayton and Crockett went out in their order and the game got interesting in the eighth, when Mullen led off for a tripple and was scored on Kemmer's two bagger after Smith had gone out from second; Daly went out from short; Spratt got first on Crockett's error and Kemmer scored; Meade fouled out to first. The score was one in favor of the visitors, when the Giants made it a tie in their half of the inning by singles by Stafford and Devlin. Sebring fanned and Stafford scored on Spratt's error; Warren and Cranston went out from the infield.

With the score tied, the ninth came on and the prospect was gloomy for the locals, when McDade, the very first man, stung the leather for three bags. Then it was that "Cy" demonstrated that he has plenty of head and with a man on third, he retired Lehman and Morrisey and it was only on a scratch hit of Mullen that McDade scored. Smith went out from third. The Giants came up with one run to overcome and another to score to win the game. It was McGinnis that started the ball to rolling down in left field and before Mullen could get hold of it, "Roanoke" was standing on third cushion and yelling to "Cy" at the bat to "let it go." "Cy" did it beautifully and "Mack" crossed the plate and tied the score; Clayton got first on Spratt's error and "Davy" fanned; Stafford got a pretty single and Sebring came up with one man down and made a beautiful single to left, winning the game.

Summary—Bases stolen, Wilmington 2, Norfolk 1. Two base hits, Clayton, Stafford, Sebring, Kemmer (2). Three base hits, Mullen, McDade. Double play, Warren to Clayton to Stafford. Bases on balls, Morrisey 5. Struck out by by Vorhees 4, Morrisey 4. Time of game 1:30. Umpire Mr. Clark. Attendance 700.

"I Feel, I Feel, I Feel Like a Morning Star."

— Leitner, Norfolk's mute pitcher, left yesterday for his home in Baltimore

— The attendance was first rate. Fully seven hundred witnessed the game.

— The Giants will leave to-night to try conclusions with the Raleigh Red Birds.

— The ladies, God bless them! How they do enjoy the game—when it is going our way.

— Phil Meade, late of the Raleigh team, joined Norfolk here yesterday and played good ball.

— The rooteresses made a great rally, and the grand stand was like a terraced flower garden.

— The STAR told you not to expect too much, and that two out of three would be the probable result.

— Secretary Doyle is a prince of good fellows and is the right man in the right place in the League.

— There will be no more games here until Thursday, when Krank King Kelly begins a three day engagement.

— "Johnnie" Foreman was released by the Wilmington team yesterday, but it is learned that he will remain in the League, going most probably to Raleigh.

— Though characterized by few sensational features, the game was nevertheless an exciting one and was greatly enjoyed by the 700 cranks and crankesses present.

— In response to the advertisement of the horse editor the team to beat Norfolk reported at Hilton Park at 4 P. M. Advertisements in the STAR bring what you ask for.

— The horse editor is now humming the words of an old song, to wit: "I feel, I feel, I feel like a MORNING STAR." It would be hazardous to predict just how he will feel a week hence.

— Now, don't be too extravagant in your claims this week. If we divide the six games evenly with Raleigh there will be no ground for grumbling. If we take four it will be just splendid.

— If the Giants count on bagging a mess of Red Birds this week they will have to offer a large article of ball. No. 10 shot will not do the K. K. K. act, which, properly rendered, means Kill King Kelly.

— That "hurrah" the horse editor fired out of his mouth when the Giants made their sixth run not only "made the welkin ring," but they do say that it came mighty nigh skeering the wimmen to death.

— Newport News will meet Richmond and Portsmouth this week, while Wilmington will face Raleigh, a stronger team than either Richmond or Portsmouth. It is well to bear this in mind in figuring on first place.

Games On Other Diamonds.

RALEIGH, N. C., June 8.—High won his game here to day by holding the Red Rirds down to five hits. The score:

	1	2	3	4	5	6	7	8	9	R	H	E
Raleigh	2	0	0	0	0	0	0	0	0—2	5	6	
Newport News	4	0	0	0	1	0	0	0	x—5	11	3	

Batteries—Person and LeGrande; High and Foster.

RICHMOND, VA. June 8.—Although Portsmouth got almost double the number of hits Richmond defeated her this afternoon in a pretty exhibition. The score:

	1	2	3	4	5	6	7	8	9	R	H	E
Richmond	1	0	1	0	1	0	0	0	0—3	6	2	
Portsmouth	0	1	0	0	0	0	1	0	0—2	11	1	

Batteries—Bass and Manners; Martin and Westlake.

Real Estate Transfers.

The following property transfers were recorded yesterday: Silas P. Wright, of Knox county, Tenn., to W. Bolls, of same county, for $800, lot 66x75 feet on North side of Hanover, between Third and Fourth streets; D. L. Gore and wife to J. A. Orrell and wife, for $675, lot on East side of Front, between Church and Castle streets, 33x165 feet in size.

TEACHERS' ASSEMBLY

Visitors Are Already Beginning to Arrive for the Annual Meeting This Week.

WILL OPEN TUESDAY NIGHT.

Local Committees On Arrangement Are at Work to Care for the Throngs of Teachers and Their Friends. Bureau of Information

Wilmington and the beaches will be thronged with visitors this week upon the occasion of the Teachers' Assembly at Wrightsville, which will be formally opened Tuesday evening in the main auditorium of the handsome new Seashore Hotel. Already guests are beginning to arrive and by to-morrow evening it is expected that fully 500 visitors will be in the city with as many more to arrive on the day following.

At 8:30 o'clock Hon. A. M. Waddell, Mayor of Wilmington, will make the address of welcome upon the part of the people and Mr. John J. Blair in behalf of the Assembly. This will be responded to by some prominent member of the organization and then the business sessions will be entered upon in dead earnest.

The local entertainment committee, Prof. Washington Catlett, chairman, yesterday reported to Mr. P. Heinsberger, of the Bureau of Information, that it had secured homes for about 300 visitors with the residents of the city, beach and sound, and others are yet to be heard from. Wilmington and the beach will be adequate in every particular to care for the crowds, and everything points to a decided success for this year's meeting of the Assembly.

The local executive committee recently appointed by the Chamber of Commerce, consisting of Messrs. Jas. H. Chadbourn, Jr., (chairman) R. J. Jones, E. Borden, W. R. Kenan, Jas. F. Post, W. A. Johnson, M. W. Jacobi, D. C. Love, Washington Catlett and J. J. Blair, met yesterday and appointed a number of sub committees to look after detail of arrangement, as follows:

Committee on Bureau of Information and Homes—Prof. Washington Catlett, Messrs. D. C. Love and M. W. Jacobi.

Reception Committee—Messrs. Jas. F. Post, Jno. J. Blair, W. A. Johnson, W. H. Bernard, Jos. E Thompson, Benj. Bell, T. W. Clawson, A. J. Howell, Jr., W. W. Turner, N. M. Wetzel and Geo. W. Brunson, Jr., and the principals of the Wilmington schools—Miss Nellie Cook, Mrs. M. L. McLeod and Miss Florina G. Worth.

THE OCEAN VIEW COMPANY.

Will Complete Its New Hotel at Wrightsville This Week—The Management.

Contractor D. Hanna has a force of thirty-two men hard at work rebuilding the Ocean View property at Wrightsville beach, which was burned several weeks ago. He will complete his contract by the middle or near the last of the present week and the new hotel will be thrown open to the public on Saturday.

Of course, it was impossible to get a building ready for this season as large as the one burned but the new one will be much more convenient and comfortable. It is 35x70 feet in size, and has a large, airy dining room and saloon and kitchen on the first floor, with ten sleeping apartments upon the second. It will have all modern conveniences and will be conducted by the Ocean View Company, owners of the building.

A new bath house, 58x72 feet in size, is also being built on the premises and it will have seventy five apartments, each of them being furnished with fresh water pipe fittings. The bath suits are new and first class.

The "Market Street Giants."

The "Market Street Giants," a juvenile base ball organization of the city, gave a very enjoyable wagonette party Thursday to Greenville Sound in compliment to a number of their young friends. Among members of the base ball team were Herman Davis, Ray LeGwin, Clarence Davis, Harry Gardner, Wm. Lacey, Mat Meier, Robt. Branch, Fred Gerken and Leo Lacy. Among the guests were Misses Fannie Gardner, Rosa Meier, Adele Drapeau, Jenerie Drapeau, Annie Lacy, May Lacy, Annelle Branch, Alice Lacy, Lizzie Gardner and Sarah Gardner. The party was chaperoned by Miss Mamie Brown, and a most delightful season was spent.

Dr. Edwin Mims, of Trinity College.

Dr. Edwin Mims, the fine scholar and student of literature, will lecture at Grace Church next Tuesday evening at 8:30 o'clock. Prof. Mims is a Ph. D., of Cornell, and has filled the Chair of English Literature at Trinity College for six or eight years. In the Summer of '98 he delivered a course of lectures on Literature before the Texas Chatauqua at Bolder, Colorado. He is a very talented man, and is said to be a speaker of unusual attractiveness. The lecture is under the auspices of the Epworth League, of Grace Church. The citizens of Wilmington generally are cordially invited.

That beautiful Russian blue serge suit, lined with silk, which the Fishblate Clothing Co. place on their counters this week at $12.50 cannot be purchased anywhere for less than $16.50; $12.50 for this week only. †

This week the Fishblate Clothing Company will sell you 2 pair linen cuffs for 25c. Regular 25 cents per pair. Just half price. †

Death of Mr. B. C. Bowden.

Mr. Benjamin C. Bowden, one of the best known and most valued citizens of Duplin county, died early yesterday morning at his home at Kenansville, N. C., in the 72nd year of his age. The news was received in Wilmington by private telegrams and it was heard with great regret by his numerous friends. Deceased is survived by his wife and three children, two of whom live in this city. They are Mrs. Jos. C. Shepard, Jr., and Mr. R. H. Bowden, of Wilmington, and Mr. J. J. Bowden, of Kenansville. The funeral will be held at 11 o'clock this morning at Bowden.

Horned Toad from Arizona.

The reptilean editor of the STAR was favored with a call yesterday from Mr. C. G. Miller, of Castle Hayne, who exhibited one of the genuine horned toads, sent him by mail by a friend in Arizona. It is a great curiosity and the reptile editor, while it was not strictly in his line, was glad to get a peep at the queer looking creature.

A Saloon Closed.

The "Texas Saloon," at No. 5 Market street, Messrs. S. M. Taylor & Son proprietors, was closed yesterday afternoon at 3 o'clock under a judgment in favor of the Southern Distilling Company, Cincinnati, Ohio. The proprietors, however, think now they have arrangements made so as the saloon will be opened Monday morning as usual.

Steamer Compton's Excursion.

Captain Sanders, of the steamer *Compton*, invites all his friends and the public at large to come and go with him to Southport and to sea, leaving the wharf, between Market and Dock streets, this morning at 9:45 o'clock. The fare is only 25 cents for the round trip.

City Subscribers.

City subscribers are earnestly requested to report promptly at the STAR office every failure of the carriers to deliver their papers. In all such cases steps will be taken to insure prompt and regular delivery.

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 9.

WHY AMERICA LEADS

It is universally conceded that in productive capacity where skill and method are essential, the United States lead the world. We beat the Englishmen making steel and implements of iron and steel. We beat the Bohieman making glass. We beat the Swiss making clocks and watches. We can take up almost any European machine and improve on it, and find possibilities in it that the original inventor or builder never thought of. That is one of the reasons why America has forged to the front as she has in the productive industries. It is American genius, skill and method aided by labor-saving and production multiplying devices. There is no other country in the world where the skilled workman stands upon the same plane, or where his individuality counts for as much as it does in this country, and no country where the laborers in the aggregate command so much attention and respect.

In the older countries the workman is regarded as a mere machine, employed to do a certain kind of work, and that is all that is expected of him. In this country it is recognized that he is something more than a mere machine, that he has a thinking apparatus over his shoulders, that he uses it, and that out of it come sometimes useful and immensaly valuable ideas and suggestions, a fact to which is largely due the wide range and excellence of our labor-saving machinery, which has put us as a productive nation so far ahead of the other countries, which is as true of the farm as it is of the shop or factory.

The European farmer, who still sows his grain by hand and harvests with the scythe, thinks he is reading a fairy tale when he reads of the American farmer riding his plow when he plows his fields, sowing his grain with machinery, harvesting it with machinery that cuts and binds the grain, threshes it with machinery threshes, winnows and bags the grain. They don't all do that but they can if they want to and have the money to purchase the machinery, which is cheap compared with its usefulness and the service it renders. This is one of the chief reasons why this country produces such an abundance of the food stuffs.

The European butcher would think he was reading a fairy tale when he read about a hog going alive into the fourth story of one of our big slaughtering plants and coming out on the ground floor cut up into hams, sides, sausage, etc. That's why the American meat packer can ship meat to Europe and sell it cheaper than they can raise it. Labor-saving machinery figures in all this.

The European paper maker would think he was reading a fairy tale when he read of a tree standing in the forest being cut down and converted into paper in a few hours, and the woolen manufacturer be incredulous when he read of a sheep being shorn and the wool made into cloth and cut for garments in a few hours and the shoemaker would feel likewise when told that a piece of leather may go into a shop and come out a pair of shoes in fifteen minutes. They don't do this as a regular thing, but it has all been done to demonstrate what American method, skill and machinery can accomplish.

In European countries they have sometimes hard tasks to overcome the hostility to labor-saving devices, because workmen have an idea that they would be deprived of work by the use of such machinery. Of course in some of the industries machinery is necessary and there there is no opposition to it, but on the farms and elsewhere where it takes the place of manual labor there is. But there is no such hostility in this country, for here the machinery which helps men to produce more, to produce it more cheaply and thus create an increased demand for and consumption of it is welcomed as an aid to the laborer. Large and cheap production leads to large consumption and this in turn to larger production, giving employment to more people.

As an illustration, Mr. B. F. Jones, for many years identified with the iron industry in that great iron center, Pittsburg, in speaking of the causes which have put America at the front as an iron and steel maker, pays tribute to the individuality, intelligence and skill of American workmen, which have made the progress of the last half century possible. In comparing the progress and methods of this day with the days in which he first became identified with the iron industry, about sixty years ago, he by way of illustration cites the fact that it then required three men to handle a 150-pound bloom in the forges. Now a single man—who may wear kid gloves, if he chooses,—can pull a lever and a 50-ton mass of molten iron is lifted and carried wherever he wants it. This is but one illustration, showing what has been achieved in the way of labor-saving machinery and how the effective power of one man has been multiplied.

The result of this multiplied power of production has been a corresponding cheapening of production, and cheapening of prices, with a comparative increase of consumption, with the result that the people of the United States use more iron per capita than any other people in the world, and the per capita consumption increases, every year. The use of iron is a barometer of progress, and judged by that standard, if no other, this is the most progressive country in the world.

The American workman is a king in his calling.

RESULT OF TREE SLAUGHTERING.

The great damage done along the Catawba and other rivers in Western North Carolina by the recent floods is said to be directly the result of the great slaughter of timber on the hill sides which has been going on for some time. Companies or individuals buy the forest lands or the privilege of cutting timber and with their portable saw mills cut up into lumber every tree in sight that has any commercial value in it. They have been doing this for several years, and the result is that great havoc has been done with the forests that in the past served as a breakwater in seasons of heavy rains. Mr. W. E. Meyers, of Chapel Hill, who is connected with the United States Geological Survey, was sent to make a tour of inspection of the flooded district on the Catawba and is thus reported by the Charlotte *Observer*:

The velocity of the water, said Mr. Myers, was greater than ever before. At Rock Hill the current ran about ten miles an hour, which is a terrific and hurtful pace for the Catawba. And it is universally admitted that during the recent flood the river was much higher than ever before.

"The hurtful effects on the velocity of the water was not due to the amount of rain that fell, for the Weather Bureau reports indicate that much heavier rains have fallen in the past and the volume of water was carried off without injurious consequence. The whole secret of the bad effect and extent of the flood lies in the deforestration in the western part of the State. Along the Linville river and in all parts of western Carolina the country is being stripped of trees, and this is followed by the forest fires which swept away all vegetation or undergrowth. When the rains fall on such land there is nothing to retard the current of the water. With great force it strikes the river; the velocity of the Catawba is increased by the mad violence of the water and the current develops a wonderful and dangerous power. Every man who lives by the river, said Mr. Myers, says, without hesitation, that the cutting away of the timber is entirely responsible for the serious flood. In the future said he, the land along the Catawba will be more at the mercy of the river. The last freshet tore off vegetation along the banks, made new channels, or cut offs, and broke through all the elbows of the river. So the farm land is much unprotected than formerly and it is in the power of the freshet to do vast injury!"

He estimates the actual damage in money done at over $500,000. If that were all it would be bad enough but such of their bottom lands as have not been damaged beyond recuperation, are liable to be ruinously flooded at any time when there may be an unusual quantity of rainfall, for the same reason that the recent flood proved so disastrous, namely, the removal of the timber which formed breakwaters and prevented precipitate flow into the rivers and rushing, devastating torrents.

When asked if there was any remedy, he said there was no present remedy, and the only prospective remedy he saw was in restrictive legislation that would put a stop to this wholesale destruction of the forests.

SENATOR PLATT'S LETTER.

No one who reads Senator Platt's letter in reply to the inquiry of Secretary Root, which letter was given to the Cuban commitee, will doubt for a moment that the Administration is playing a tricky game in refusing to accept the constitution with the Platt amendment adopted on the construction warranted by that letter, practically endorsed by Secretary Root when he gave the letter to the committee, and also practically endorsed by the President, who must have seen the letter or been made acquainted with its substance, and also have known that it had been given to the committee.

It may be argued that this letter was not an official document issued by one whose name would give it legal standing, which may be true, but the question was as to the construction of the language and the scope of the doubtful clauses. Who could or should be better qualified to explain that than the drafter of those clauses, who didn't do it alone, but with the co-operation of others who with Senator Platt jointly planned and framed this amendment? That was the view taken of it by Secretary Root, otherwise he would not have asked Senator Platt for an interpretation of his work, and that was the view he took of it when he handed this letter over to the committee as an answer to the inquiries they propounded.

With this and the other answers that had been made, the committee went back to Havana, believing that the matter had been satisfactorily explained and on that understanding the Platt amendment, as explained by Platt, was accepted. And now they are told that the acceptance will not do. This would be simply trifling, if it was not something more serious.

"I hope others will do as I did."

"I suffered for six years with ovarian trouble," writes Mrs. E. Waite, of Chicago, Ills. (Lake View Postoffice.) "Sometimes I could hardly walk, and when I had to cough it felt as though a knife was cutting me. My hands and feet were cold all the time. I had such a tired feeling and such a poor appetite, and when I went to bed I slept only about two hours at a time. I got a bottle of 'Favorite Prescription' and by the time I had used two bottles I felt so much better that I continued until I had taken eight bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and now I am so well that my friends remark how well I am looking. I go to bed now and sleep till morning. My appetite is splendid and that tired feeling has left me. I hope others will do as I did—give Dr. Pierce's medicines a fair trial."

CURRENT COMMENT.

—— And now we are told that the Filipinos do not even know whether they are "appurtenant" or not. Possibly they are just plain chattels.—*Norfolk Virginian-Pilot, Dem.*

—— La Lucha says fully 85 per cent. of the people favor the Platt amendment, which the members of the constitutional convention oppose. If this is true it would seem that the people of Cuba are quite as much fit for self-government as the people of this country—at least, in the matter of having their wishes overridden by the politicians.—*Atlanta Journal, Dem.*

—— Our sales to Asia in 1891 were $90,300,000, in 1900 $204,756,000, a gain of $105,000,000 in ten years. In the same years our sales to Europe gained $336,000,000. About 4 per cent. of our exports go to Asia and the Asiatic islands, and 16 per cent. of our imports come from the same quarter. Our alleged "great oriental trade" is something of a myth. We sell more to Great Britian and her colonies in one year than we sell to China and Japan and the other independent powers of Asia, in ten years.—*Chattanooga Times, Dem.*

—— If we add to the army of nearly one million pensioners the soldiers in the field, the sailors in the navy and the great array of names borne on the civil list it will be found that about one person in ten of the adult male population of the country has a direct pecuniary relation to our paternal Federal Government. The proportion of taxeaters to taxpayers cannot be much further enlarged without grave danger. It will be an unhappy day for the country when men shall be forced to weigh the cost of government against its quality and worth.—*Philadelphia Record, Dem.*

FOLDED HANDS.

MARGARET E. SANGSTER.

Pale, withered hands that more than fourscore years
Had wrought for others; soothed the hurt of tears,
Rocked children's cradles, eased the fever's smart,
Dropped balm of love in many an aching heart,
Now stirless, folded like wan rose leaves pressed
Above the snow and silence of her breast;
In mute appeal they tell of labors done,
And well earned rest that came at set of sun.
From the worn brow the lines of care are swept,
As if an angel's kiss the while she slept
Had smoothed the cobweb wringles quite away
And given back the peace of childhood's day;
And on the lips a smile as if she said:
"None know life's secret but the happy dead."
So, gazing where she lies, we know that pain
And parting cannot cleave her soul again.
And we are sure that they who saw her last
In that dim vista which we call the past,
Who never knew her old and weary-eyed,
Remembering best the maiden and the bride,
Have sprung to greet her with the olden speech,
The dear, sweet names no later love can teach,
And "Welcome Home!" they cried, and grasped her hands,
So dwells the mother in the best of lands.

BACKACHE SHOULD WARN WOMEN.

MISS LUCY ANNIE HEISER, OF MINNEAPOLIS, MINN.

Miss Lucy Annie Heiser, a graduated nurse of nine years' experience, trained and graduated from the Homeopathic Hospital of Minneapolis, Minn., writes as follows:

Albert Lea, Minn., Nov. 8, 1899.

The Peruna Medicine Co., Columbus, Ohio:

Gentlemen:—"Although my school does not believe in patent medicines, I have found it to be a fact that Peruna is a grand and valuable medicine. I have known it to cure Mrs. Sampson, suffering with an inflamed womb, aggravated by malaria, after the doctors had failed to help her. Another of my former patients suffered with a complication of female diseases; she was so thin, nothing but skin and bones, but Peruna cured her and she is to-day in good health and good flesh. Facts prove that Peruna revives lost strength and restores to the sick that most wonderful blessing of life.—health."

Lucy Annie Heiser.

From Mrs. Amanda Shumaker, who has charge of the Grammar Department of the Public Schools, of Columbia City, Wash., also Past Grand of Independent Order of Good Templars. Dr. Hatman received the following letter:

COLUMBIA CITY, WASH.

"I can speak only good words of the repeated benefits I have had from the use of Peruna.

"Too constant application to work last winter caused me to have severe head and backache and dragging pains. I could not stop my work, neither was I fit to go on. Reading of the beneficial results from the use of Peruna I purchased a bottle and within a few days after using it, began to feel better.

"I constantly improved and before the seventh bottle was completely used, all pains were gone, my strength was restored, and I now seem ten years' younger.

"If I get tired or feel bad, Peruna at once helps me, and I feel you deserve praise for placing such a conscientious medicine before a suffering public."

Mrs. Amanda Shumaker.

Mattie B. Curtis, Secretary Legion of Loyal Women, Hotel Salem, Boston, Mass., writes:

Mattie B. Curtis.

"I suffered for over a year with general weakness and debility, manifested especially in severe backache and headache.

"My physician prescribed different medicines, none of which seemed to help me any until a club associate advised me to try Peruna, as it cured her of constitutional headache and stomach troubles. I at once ordered a bottle and before it was used, felt greatly improved.

"I have taken four bottles and for two months have been entirely free from these maladies. Several of my friends are using Peruna with beneficial results, especially in cases of troubles with the kidneys and other pelvic organs, together with weaknesses peculiar to women."

Peruna is a specific for the catarrhal derangements of women. Address The Peruna Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

— Stanley *Enterprise*: The peach crop in our county will be comparatively small. While there are considerable apples, the fruit is falling off and it is thought the yield will will not be a full one. —— The damage to crops has been great in our county. Our farmers are sadly behind with their work, and it is impossible for most of them to secure the necessary help to get their corn and cotton worked before harvest time.

— Newton *Enterprise*: Wheat is beginning to ripen, and by the last of this week or the first of next, harvesting will begin in Catawba county. —— Did anybody ever hear of crows catching young chickens? What they do with the chickens is not known, but all this Spring crows have been darting down in Mr. A. A. Hoover's barn yard and carrying off young chickens. They are beating the hawks at the hawks' own game ten to one. There is no mistake about this, because they have frequently been seen in the act of grabbing up the chickens and flying off with them.

— Statesville *Landmark*: Mr. R. J. Croaker, late of the 29th volunteer infantry, United States army, and on duty in the Philippine Islands from November 2, 1890, to March 23, 1901, to March 23, 1901, was in Statesville this week on a brief visit to his sister, Mrs. E. W. Culbreth. He went from here to his home at High Point. Mr. Croaker bought with him from the Philippines an interesting and valuable curiosity. It is a petrified apricot and a perfect specimen. It was given to Mr. Croaker by a Spanish lady at Catbalygan, province of Samar, P. I. The lady's great grandfather had an orchard on the spot 103 years ago. The place is now a cocoanut grove. Twenty-three years ago the apricot was found. It is in as perfect a state of preservation as the day it fell from the tree and is as heavy as lead. Mr. Croaker says he was offered $250 in gold for it by a travelling man at Salt Lake City, Utah, but declined. He wrote to the Smithsonian Institution in Washington and was told if the specimen was genuine it was worth $500 He expects to send it to this institution.

— Happy Retort: Now, don't tell me any story about misfortune an' wantin' to be a hard worker, 'n' all that, said the hardfaced lady. "I can see right through you. Gee! said Dismal Dawson. I know I ain't had nothin' to eat for three days, but I didn't know it had thinned me down like that.—*Leslie's Weekly.*

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praise throughout the Universe." So will every one who tries Dr. King's New Discovery for any troubles of the Throat, Chest or Lungs Price 50 cents and $1.00. COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 8.—The cotton market opened steady with prices up four to seven points on a scarce of shorts, so common of late, and energetic buying for investment accounts. All the forenoon the market showed inherent strength and was very active at times with fluctuations more or less violent. The bulk of the buying was done by disheartened shorts, many of whom had weathered the recent rise on the belief that a sharp reaction was now due. The West was a free buyer of August but sold July. Wall street took profits on August holdings while the South bought new crop months. The weather south was fairly favorable. A bullish review of the week in the belt by the *Chronicle* and a decrease in receipts, helped to strengthen the market early in the session. Private advices noted increased demand for spot cotton in nearly all Southern markets with prices 1-16c to ⅛c higher. Private cables stated that the short scare in Liverpool was unabated and that increasing investment speculation was placing the market in a very firm position. Following the call in the local market July advanced to 8 24, August 7 71 and October 7 35. There were slight reactions late in the session under profit-taking and light selling for a turn. The market closed steady with prices net three to six points lower, having weakened near the close, under heavy general selling.

THE LATEST AS TO NERVES AND STRENGTH

It is not muscle so much as the nerves back of muscle which show one's strength and power of endurance. After the study with able physicians of to-day is how to keep the nerves in perfect health and fitted for the strain of everyday living. Headache of every type, nerve weakness, dyspepsia, sleeplessness, languor, restlessness, nervous dyspepsia, muscular weakness, brain weariness, poor circulation,—a thousand different unpleasant feelings and symptoms are due to nerve waste and nerve weakness,—especially in women and children. But how can all this be prevented, one will ask? How can my broken down constitution be repaired, and nerve strength and full, robust health be secured. Just two points to remember: Determine that you will grow strong in nerves and health, and decide to use at once that most famous nerve cure, COCELIN. It is delicious in taste, quick in action and makes the wearied nerves tingle with renewed strength and every function the stronger and faculty the brighter by its use. Druggists sell it.

DRESSES FOR MISSES.

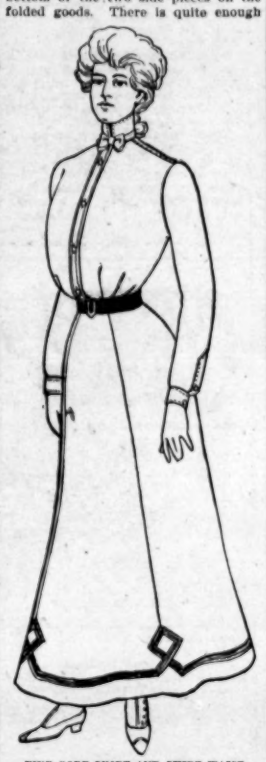
HOW TO MAKE SUMMER GOWNS FOR THE BIG GIRLS.

The Mysteries of Constructing Five Gored Skirts and French Waists Fully Explained—Hints About Shirt Waists.

[Copyright, 1901, by American Press Association.]

Skirts for growing girls are now cut much in the same style as are those of the mothers, but are made more simply. Serge and homespun and such materials are best for ordinary wear, and all skirts are cut with five gores—one in front, two on the sides and two in the back. These may be finished with or without side pockets and open in front at the left side of the seam or open in the back.

Where it is an object a skirt which has become worn at the bottom so that it is no longer possible for the mother can be cut off around the bottom and faced up again and a row or two of braid put on. The material, if of good quality, can be cleaned by sponging it with a little ammonia. But if a new one is to be made it will require two yards and a quarter of 44 inch stuff to make a five gore skirt for a length of 38 inches. It must, however, be material that has no "up and down," meaning that it must have no pattern where if one breadth were to be cut one way and the other another way it would spoil the dress. Napped goods also cannot be cut to the same advantage in this way. It needs material like cheviot, serge, cravenette or mohair. To cut the skirt one must take the pattern and place the center of the front breadth at the center of the fold in the cloth and then lay the two side pieces on so the narrow part of the front breadth is by the side of the widest part of the side ones. This means that the top of the front breadth lies by the bottom of the two side pieces on the folded goods. There is quite enough



FIVE GORE SKIRT AND SHIRT WAIST.

room to do this, and when they are turned right side up and sewed to the fronts there is nothing to do but cut the slant in the sides of the doubled back piece, making two of it. This is much wider than any of the others, and the extra width makes the folds or gathers in the back. When the skirt has been cut and basted, it is well to try it on wrong side out, so that it is easy to fit it by pinching it in over the hips. Some skirts cut by the best patterns fail to hang right when made because they were not fitted on and the fullness brought to just where it should be before finishing it off.

Few summer dresses are lined, even the woolen ones, but if they are the thinnest and lightest of linings should be used.

Most thin dresses are made with straight skirts and gathered and sewed to the belt. Gathered skirts are especially suitable for young persons. Cotton frocks, which include ginghams, zephyrs, lawns, linens, percales, piques and ducks, besides more than one can give space to, may be made with one flounce at the very bottom of the skirt and not set up on it as has been done. Many rows of stitching and sometimes straps with small clusters of tiny white pearl buttons are among the suitable trimmings for woolen skirts. The blouse waists will prevail for woolens, and they will be worn for some time yet, and these are not unlike, though much more simply made, those of their elders. Velvet cuffs and revers are probably the best.

Shirt waists are to be so generally worn that it is scarcely worth while to mention them except to say that they are mostly rather shorter in the front than before and do not pouch out so much, but fit more like the French waist. They are gathered at the neck and at the waist line. The backs are slightly gathered at the bottom, and none has a pretense at fullness at the neck in the back. A few have tucks all the way up in the back, but there are no more yokes. The simpler they are the better. OLIVE HARPER.

Why He Wanted a Receipt.

There was a lawyer in the Indian country who had none too good a reputation for honesty, says the Chicago News.

One of the aborigines employed him to do a little legal business. It was done to the client's satisfaction, the fee duly paid and a receipt for it duly demanded. "A receipt isn't necessary," the lawyer said. "But I want it," replied the red man. There was some argument, and the attorney finally demanded his reason. "Since becoming a Christian I have been very careful in all my dealings that I may be ready for the judgment," answered the brave sententiously, "and when that day comes I don't want to take time to go to the bad place to get my receipt from you." The receipt was made out and promptly delivered.

Thrive Without Meat.

It is the religion of nearly all Asiatics to abstain from eating flesh, fish or fowl, because it is a sin to kill for food anything that has instinct, "lest it be hindered on its upward way." Besides, according to the doctrine of transmigration of souls, one might kill and eat one's grandmother. But, aside from that, vegetable food, it is claimed, makes better muscle and bone than meat. Anyway, it is well known that the stevedores of Constantinople and other eastern ports never eat meat, and that, as a class, they have no superiors anywhere in the world in physical strength.

SUNDERED.

O love, since you and I must walk apart,
Spare me one little corner of your heart—
A shrine
That shall be wholly mine!

Others may claim, and rightfully, the rest;
If there I know I am not dispossessed,
All bliss
I, eager, shall not miss.

And if so be you sometimes offer there,
Though but in thought, the fragment of a prayer,
No more
Can I, alas, implore!

But that is much and shall, forsooth, avail
To make my footsteps falter not nor fail,
Though far
Our pathways sundered are.

Then, love, since you and I must walk apart,
Spare me one little corner of your heart—
A shrine
That shall be wholly mine!

—Clinton Scollard in Harper's Bazar.

A FICKLE IMMIGRANT.

Her Experience With Two Lovers at Uncle Sam's Barge Office.

"There seem to be manifold opportunities among the immigrants coming to America on shipboard for failing in love, particularly on the slower steamers, when people are thrown together for a period of from 12 to 18 days," says John Gilmer Speed in Ainslee's. "In this case a worthy young Russian was cheated out of a very pretty bride by a likely Italian fellow traveler of the maiden. Strangely enough, she knew not one word of Italian nor he a word of Russian, yet the bride's countryman was jilted, and the pantomime lovers were married and set forth gayly and confidently to learn each other and the great new world they had entered at one and the same time.

"Another case was equally ludicrous. A Swedish maiden of somewhat fickle mind fell in love with a fellow voyager without apprising him of the fact that she was betrothed to another man whom she was to meet at the barge office and marry. It was her intention to hurry ashore with her new lover and outwit the former by a prior ceremony, but the red tape of the office prevented that, and the first lover came to welcome his bride. She then as promptly fell in love with No. 1. But when No. 2 pleaded and threatened, she could not decide which one she loved the better, so she was detained while the two men haunted the barge office, glaring at each other.

"When the detention time had elapsed, the bride, still not knowing her mind, was sent unceremoniously back on the same steamer that brought her over, both jilted lovers abandoning the field in despair. But on arriving on her native soil once more the maiden dared not face her people, so back she came, having just money enough to pay her passage, and sent for lover No. 1, declaring that she loved him the better. He replied that he was very much obliged, but as he had already married a handsomer girl in the interval he was compelled to decline to come for her. The maiden then sent word to No. 2 to like effect, but he declared that he had had enough of the fickle feminine, and thus in defeat the maiden was transported back again to face the leers and jeers of her native hamlet."

Saved by Seaweed.

"I was once saved by seaweed," said an old sea captain, "down in the Falkland islands. We were being washed on a lee shore when the skipper, an old fellow from Nova Scotia, picked up a vine that was floating on the water and hauled it in until it got pretty near as big as a man's body; then he made it fast, and we swung by it, as good a cable as you would want to see and one of the curiousest things."—Philadelphia Press.

Mechanism of a Fish.

People marvel at the mechanism of the human body, with its 492 bones and 60 arteries, but man is simple in this respect compared with the carp. That remarkable fish moves no fewer than 4,386 bones and muscles every time it breathes. It has 4,320 veins, to say nothing of its 99 muscles.

Tact is being more and more recognized as a valuable instrument in man's welfare and happiness.—Philadelphia Ledger.

The most magnificent tomb in the world is deemed to be the palace temple of Karnak, occupying an area of nine acres.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." None should fail to try them. Only 50 cents, guaranteed, at R. R. BELLAMY'S Drug Store.

The Sunny South

Fifty Cents a Year. Less Than a Penny a Number

THE SOUTH'S LITERARY WEEKLY

Published at Atlanta, Ga.

After a career of more or less activity in the Southern field for over a quarter of a century The Sunny South has again become a weekly, better and more readable than at any time in its history. It contains serial stories from the best known authors the world over. It is devoted to Southern readers and Southern writers and is their own story paper. Short stories, sketches, incidents of war and of peace, anecdotes at home and afield, poems, ideas, fashions, hints for home keepers, everything of interest to old and young will appear in its excellent weekly make up.

The two great serials, "TRISTRAM OF BLENT," by ANTHONY HOPE (now in progress with full synopsis to cover former installments), and "Rosalynde's Lovers," by Maurice Thompson, to begin April 27th, will be read with absorbing interest throughout the whole South. This is your opportunity, and only 50 cents for a full year of it. Think of it! 50 cents.

Subscription price is only fifty cents a year. No agents' commission. The paper is its own best offer and argument to the subscriber. One sample copy free to you and to your six neighbors whose names and addresses you send on a postal card, provided you send at once. A club of five at 50 cents each, accompanied by the full amount $2.50 net to us, entitles the sender to The Sunny South a whole year free.

The Sunny South is your old friend in a new form, always improving, every issue to excel the last one. The South's literary paper is here at last. Order it to-day.

The Sunny South in combination with the greatest of all Southern Weekly NEWSPAPERS—The Atlanta Weekly Constitution—both for only $1.25 a year. Remit that amount to The Sunny South, and get these two great papers—One Literary; the other News.

The Morning Star.

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 9.

MOTHER AND SON ARRESTED

Madame Monnier Kept Her Daughter Incarcerated for Twenty-five Years. Horrible Disclosures.

By Cable to the Morning Star.

PARIS, June 8.—The sensation of the week has been the arrest of Madame Monnier, a rich and miserly land owner of the neighborhood of Poitiers, and her son, a former subprefect of the department of Vienne and a leader of Poitiers' society, on the charge of incarcerating Mlle. Blanche Monnier, daughter of Madame Monnier, for twenty-five years in a room of Madame Monnier's house. The police were anonymously notified of the woman's detention, entered the house and found Mlle. Monnier shut up in a room, in darkness, lying on a mattress, stark naked, and so emaciated that she appeared to be a living skeleton. The room was covered with filth, bones, refuse, food, worms, rats and all kinds of vermin.

The unfortunate woman, who had partially lost her reason, was taken to a hospital. It was thought she would die, but she is now improving. Twenty-five years ago she was a beautiful brunette and fell in love with a lawyer without means. Her mother disapproved of their love and confined her in the room which she has only recently left. The son, after his arrest, pleaded that he acted as he did on account of filial piety and that the mother was responsible. The lawyer died in 1885.

There was another dramatic development in the case to-day. Madame Monnier died in prison of heart disease. The gravity of her crime was brought home to her at the judge's examination Thursday. She became ill and died suddenly in the infirmary of the prison this morning.

FOR A SHORTER WORK DAY.

The International Machinists' Association Declares Its Purpose to Continue the Fight.

By Cable to the Morning Star.

TORONTO, ONT., June 8.—The International Machinists Association today adopted a resolution to the effect that "after due consideration we accept the challenge of the National Metal Trades Association, and in accepting this declaration of war we cheerfully pick up the gauntlet and hurl back defiance. We never will accept any modification of our demands or resume labor until the cause for which we struggle is triumphant and a shorter work day is an accomplished fact."

President O'Connell claims that the international association did all it could to get satisfactory adjustment by pacific means, offering to accept any decision reached by arbitration that would cover the question nationally, but he says the employers refuse every effort of conciliation.

F. H. Sergent, grand master of the Locomotive Firemen's Association, assured the delegates that his order would assist them by all means in their power to win their fight.

THE DUEL WITH SWORDS.

Resumed Yesterday After Nineteen Resultless Rounds—M. Regis Was Wounded in the Arm.

By Cable to the Morning Star.

PARIS, June 8.—The duel with swords, which was begun yesterday in the Parc des Princes between Max Regis (the anti-Semite Mayor of Algiers) and M. Laberdesque, an Algerian journalist, and which was adjourned after nineteen resultless rounds had been fought, was resumed this morning. M. Regis was seriously wounded in the forearm, a copious flow of blood resulting and the duel thereupon was stopped.

A quarrel then broke out among the seconds and several spectators, who included the well-known fencers Malato, Thomegueux, Suitzbacher and others. Several challenges were exchanged and finally friends succeeded in leading away M. Regis who was furious over the seconds' decision. Before he left the ground M. Regis shouted to M. Laberdesque: "I fought you to show I was not afraid of your swords." "You are, nevertheless, an assassin."

M. Laberdesque promptly retorted, asking the seconds to arange another duel.

FRAUDULENT USE OF MAILS.

A Prominent Citizen of Sandersville, Ga., Arrested and Held for Trial.

By Telegraph to the Morning Star.

MACON, GA., June 8.—Warren P. Lovett, a prominent citizen of Sandersville, was arraigned before United States Commissioner Erwin here today, charged with using the mails for fraudulent purposes. He was put under $900 bond, which he gave. It is contended that he bought all sorts of goods from all parts of the country without any intention of paying for them. His correspondence was conducted, it is claimed, over various names, among them William Parker, Robert L. Jackson, James Crow, Jim Crow and Seco Poultry Yards. According to the government's contentions, he secured goods in small quantities—mostly in sample lots—and would sell these to his acquaintances at greatly reduced prices, whatever he received being profit.

The Russian minister of finance has raised the duty on American bicycles thirty per cent., and on several American rosins under the names of colophonium, galipot and brewers' pitch, twenty per cent.; the new rates to become effective a fortnight from yesterday.

TERRIBLE STORM IN OKLAHOMA.

Wind, Rain and Hail Swept Over the Territory Last Friday With Destructive Force.

MANY PERSONS WERE KILLED

The Town of Eddy Blown Away—At Tonkawa Two Churches and Thirty Residences Demolished—Kingfisher City Swept by Cloud Burst.

By Telegraph to the Morning Star.

PERRY, O. T., June 8.—The storm which passed over Eastern Oklahoma last night was the most severe since the opening of the strip. A feature of the storm was the extent of the territory covered. Sweeping down from the Kansas State line and covering about fifty miles in width, the rain, wind and hail swept over the country as far south as Oklahoma. The rain fell in torrents from early in the evening until midnight. The fury of the storm centered in a cyclone at about 6.30 P. M., which formed at a point near the Kansas State line and just on the county lines of Grant, Kay and Oklahoma. The twister took a southeasterly course and was disastrous in an area of ten miles square in eastern Kay county. The little town of Eddy was struck and of the twelve or fourteen buildings in the place, all were levelled to the ground, except the railroad station and an elevator. The people of the town sought places of safety. One unknown man was killed and several persons were slightly injured by flying debris.

The track of the cyclone between this point and Tonkawa, a distance of about eight miles, was laid waste. Five farm houses with barns and outbuildings were blown away, but all the occupants escaped without injury. Fine fields of wheat in the midst of harvest were laid waste. The tail end of the cyclone fell with terrible force upon Tonkawa. Thirty dwellings and business houses were scattered like loose timber. The citizens of the town had been watching the advance of the storm and had sought shelter in caves and cellars. No fatalities are reported at this point, and only a few persons received scratches, which is almost miraculous, considering the devastation.

ENID, O. K., June 8—The worst storm in years swept over the territory last night. It was particularly severe in Noble and Kay counties. The gale commenced at 10 p. m., and by 1 a. m. was blowing at tornado speed, carrying everything before it. At Billings, Noble county, much damage was done. Seven people were killed and many severely injured. A cloud burst occurred near Hennessey, Kingfisher county, and Kingfisher city suffered severely.

Town Blown Away.

BLACKWELL, O. T., June 8.—A destructive rain and hail storm visited here last night, killing three persons and doing much damage to property. J. H. Crawford, a prominent contractor, was killed by lightning. Eddy, a town twelve miles southwest of here, was blown away. At that place, two persons were killed and several others injured.

TONKAWA, O. T., June 8.—A terrible wind and rain storm struck this place at 5 o'clock Friday afternoon and lasted two hours, causing much damage. Two big church buildings and about thirty residences were damaged. Twelve houses were torn down and blown away. The Salt Fork river is full of wreckage of houses and furnishings. Barns were torn away, but buggies and horses that were in them left standing unmoved. The people sought shelter in caves, and in this way many were saved from personal injury.

TRAIN WRECKED.

Ten Persons Injured—Two Fatally—Two Coaches Were Burned.

By Telegraph to the Morning Star.

WITCHITA, KAN., June 8.—The eastbound 'Frisco passenger train, No. 108, which left here this afternoon, was wrecked at Greenwood, a station sixty miles east of here, injuring ten persons, two fatally. All of the injured have been taken to Fall River and physicians have gone from here to attend them.

The train was going at the rate of thirty miles an hour and at an abrupt turn near Greenwood station the dining car and a sleeper jumped the track. A range in the dining car was upset and the live coals in the range set fire to the car and within thirty minutes both of the derailed cars were consumed. None of the other passenger coaches were injured.

APPEAL TO THE POWERS.

To Submit Issues at Pekin to The Hague Tribunal.

By Telegraph to the Morning Star.

WASHINGTON, June 8.—The United States government has again appealed to the Powers to submit the present issues at Pekin over the indemnity propositions to the arbitration of The Hague tribunal. Mr. Rockhill, who has been watching for an opportunity, cabled Secretary Hay last night for permission to make a proposition and the Secretary this morning cabled him authority to do so. It is believed that the ministers at Pekin have become involved beyond extrication in the present issues, and this proposition may be the only way out.

A FLORIDA STEAMER.

Will Run Between Duluth and Mackinaw During the Summer.

By Telegraph to the Morning Star.

ORANGEBURG, N. Y., June 8.—The steamship Miami has arrived up the St. Lawrence from Miami, Fla., and after coaling here cleared for Duluth. She is 254 feet long, 40 feet beam, 11 feet draught, twin-screw and can carry 2,200 passengers. She will run between Duluth and Mackinaw during the Summer, returning in the Fall to run between Florida and West India ports. The enlargement of the St. Lawrence canals is introducing a number of strangers to the lake shipping.

BOERS SURPRISED.

British Capture Prisoners, Ammunition and a Quantity of Supplies.

By Cable to the Morning Star.

CAPE TOWN, June 8.—The British surprised two Boer laagers at different points in Cape Colony Thursday night and captured 43 prisoners, 15,000 rounds of ammunition and a quantity of supplies.

A railroad wreck occurred near Pretoria, June 7th, in which nine soldiers were killed and many injured.

THE PASSION PLAY.

Presented by Indians Under Direction of Roman Catholic Missionaries

By Telegraph to the Morning Star.

VANCOUVER, B. C., June 8.—The presentation of the Passion Play, postponed on account of the heavy rainfall, was begun this afternoon on the Indian reservation at Chilliwacke, forty miles from this city. Five hundred Siwash Indians, representing thirteen tribes and speaking seven different dialects, were engaged in presenting the play under the direction of the Roman Catholic missionaires to the British Colombia Indians. The Indians, including 2,000 aborigines, were from all parts of the Pacific coast, all wearing brilliantly colored costumes. To the white spectators the general appearance was that of fete, while the solemnity of the occasion was marked by the peculiarity of the devotion of the Indians.

ATLANTIC COTTON OIL CO.

Entire Property Purchased by the Virginia-Carolina Chemical Company.

By Telegraph to the Morning Star.

CHARLESTON, S. C., June 8.—The Virginia Carolina Chemical Company has succeeded after several months negotiations in purchasing the entire property of the Atlantic Cotton Oil Company, of Sumter, S. C., for $300,000 cash. The deal was closed yesterday in New York by Mr. A. C. Phelps. The Atlantic Cotton Oil Company has a sixty-ton mill in Sumter, a sixty-ton mill in Camden, a sixty-ton mill in Bennettsville, a forty-ton mill in Gibson, N. C., and a refinery in this city, and is capitalized at $250,000. No particulars of the deal or of the future plans for the plant of the company have been obtainable.

ESCAPED LYNCHING.

White Man Charged With Criminal Assault at Mt. Carmel, Ill.

By Telegraph to the Morning Star.

PRINCETON, IND., June 8.—Henry Reynolds, white, thirty years of age, who was arrested in Mount Carmel, Ill, Friday night, charged with assaulting Lida Chase, the 13 year old daughter of a prominent farmer, was lodged in jail here to day, fifty men having crossed the river, intending to lynch him. News of their coming caused the authorities at Mount Carmel abruptly to stop his preliminary hearing and he was sent to Princeton at once under guard of the sheriff and a posse. Extra precautions have been taken to protect the prisoner from further attempts at lynching. Reynolds has confessed. The girl is in a serious condition.

"CHICAGO MAY."

American Woman Arrested in Paris for Complicity in a Robbery.

By Cable to the Morning Star

PARIS, June 8.—The police of this city have arrested an American woman named May Churchill, who had maintained intimate relations with "Ton" Edwards, one of the burglars who robbed the Paris office of the American Express Company in April, the authorities having decided to charge her with complicity in the robbery. She was formerly a music hall performer and had made a tour of the United States under the sobriquet of "Chicago May."

CITIES AND TOWNS.

Census Bulletin Giving the Population of Incorporated Places.

By Telegraph to the Morning Star.

WASHINGTON, June 8.—The Census Office to-day issued a bulletin giving the population of incorporated places in the country. The bulletin shows that there are 16,602 such places as compared with 7,478 in 1890. The incorporated places contain, in the aggregate, 35,849,516 inhabitants, as compared with a total of 26,079,828 persons living in incorporated places in 1890. The combined population in incorporated towns and cities constitute 47 per cent. of the population of the entire country, as against 41 per cent in the towns of 1890.

ALABAMA'S CONVENTION.

A Design Adopted for the Great Seal of the State.

By Telegraph to the Morning Star.

MONTGOMERY, ALA., June 8.—Gen. Samford introduced an ordinance today in the constitutional convention to establish a great seal for the State. It will symbolize the story of Emma Samson, showing the ford of Black Creek to General Forrest, one of the romantic incidents of the war on Alabama soil. The ordinance was received with great enthusiasm.

Miller, of Marengo, introduced a resolution "to prevent corporations from having any exclusive contract for supplying books to State, county or district schools."

DESPERADO CAPTURED.

Wanted for Murders Committed in North Carolina and Other States.

By Telegraph to the Morning Star.

MIDDLESBORO, KY., June 8.—Louis Myers, alias Williams, a notorious moonshiner and desperado, has been captured here. He is charged with the murder of two women in Virginia, three men in North Carolina, including a United States marshal, one man in South Carolina and the sheriff of Unicoi county, Tenn. Rewards aggregating $2,500 have been offered for his capture. The Governors of these States have been notified of his capture. He has several times been captured, but has always managed to escape.

HELD CONSTITUTIONAL.

Iowa's Anti-Cigarette Law—United States Court Decision.

By Telegraph to the Morning Star.

MARSHALLTOWN, IA., June 8.—In the U. S. District Court to-day the Iowa anti cigarettee law was held constitutional. The court, through Judge Burnham, held that the property of cigarette dealers and the owners of buildings where it shall be proved that cigarettes are sold, may be attached for the payment of the tax levied under the new law. The case will be appealed, it is stated.

Sarah Bernhardt says there is still some doubt as to whether she will play Romeo to Maude Adams' Juliet. Her acceptance of the offer was made jokingly, but was taken seriously.

RAILROAD TRAINS BLOWN TO ATOMS

Rear-End Collision Exploded a Car of Dynamite Near Binghampton, N. Y.

SIX MEN KILLED OUTRIGHT.

Three Others Fatally Injured—Towns in the Neighborhood Suffered — Surrounding Houses Damaged. Shock Felt Thirty Miles.

By Telegraph to the Morning Star.

BINGHAMPTON, N. Y., June 8.—At 9:30 P. M. a heauy explosion shook this city. Street car men just in from Union, ten miles west of here, say that it is reported there that a car of dynamite blew up at Vestal, across the river from Union, killing four men and badly wrecking surrounding houses. The Casino, a resort at Union, is badly damaged, as is also the house of the Binghampton County Club. All communication is cut off and special trains have gone to the scene.

Rear-end Collision.

BINGHAMPTON, N. Y., June 8.—While a freight train on the Lackawanna was taking water at Vestal ten miles west of here, at 9:45 o'clock to-night it was run into from behind by a double header wild-cat freight. In the second car from the caboose of the stationary train was a large quantity of dynamite, which was exploded by the impact. Two men are known to have been killed, three others are thought to be in the wreck, and a number of others are known to be badly injured.

The explosion completely demolished four freight cars. Much damage was done by the concussion, most of the windows in Vestal, and Union across the river from Vestal, being shattered. Binghampton's plate glass fronts did not escape, many of the largest glasses in the center of the city being broken. The shock was felt at a distance of thirty miles.

A later dispatch says:

Six men were killed and three fatally hurt. Both trains were blown to atoms, but the remainder of the crews escaped with slight injuries.
